

Here are directions on how to pay for your order with a bank deposit. Note that you do not need a bank account with any of these banks to make a deposit. You will be making a deposit into someone else account to buy bitcoins from them. The bank teller should not ask you why you are making the deposit, but if they do you can tell them that's it's personal. You are making a completely legal purchase of bitcoin. However, if you end up talking to bitquick.co customer service do NOT mention our web site or what you are doing with the bitcoin.

1) To begin visit <http://bitquick.co> and click the “Launch Quick Buy” button.

2) Put the exact amount of bitcoins that you received when you put in your order in this field:
